Precision In Every Pellet

PREMIUM RECYCLED PLASTIC GRANULES YOU CAN TRUST.

About Us

JAY KISHAN POLYMERS

is engaged in the manufacturing of a wide range of recycled plastic granules, built to serve modern industrial demands with reliability and precision. Our approach combines practical industry knowledge with efficient production methods to deliver consistent and dependable material solutions.

Our operations are driven by a commitment to quality control, timely execution, and long-term client trust. Every stage of production is carefully monitored to meet evolving industry standards and expectations.

With sustain ability at our core, we convert plastic waste into reusable resources - contributing towards a more responsible and future-ready manufacturing ecosystem.

POLYPROPYLENE (PP)

JAY KISHAN POLYMERS

offers a wide range of pp colored granules that are manufactured using plastic articles waste including plastic pigments that finds applications in various industries. We believes in quality, hence some of the salient features of our range are flame resistance, non toxic, non hazardous, chemically stable

AVAILABLE COLOR OPTIONS FOR PP

GREEN	RED	BLACK	PINK
BLUE	YELLOW	WHITE	NATURAL
VIOLET	ORANGE	PISTA	COFFEE

COLORS CAN BE DEVELOPED ACCORDING TO CUSTOMER REQUIREMENTS

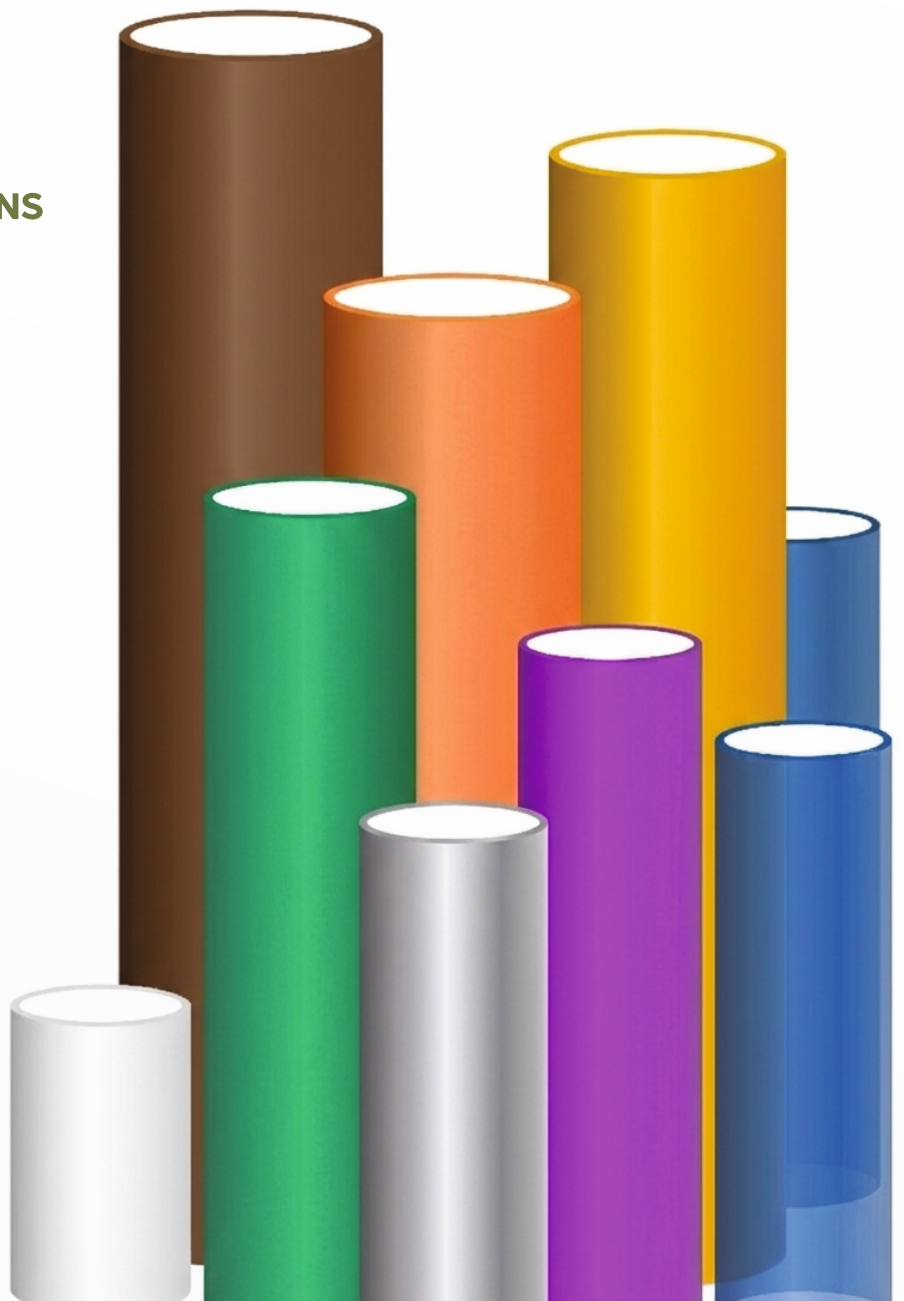

PLB HDPE Duct Pipe

Our PLB HDPE Duct Pipes are engineered from high-quality reprocessed HDPE granules, offering a robust, durable, and cost-effective solution for cable ducting and conduit systems. Designed to withstand high pressures, harsh environmental conditions, and long-term wear, these pipes ensure reliable protection for electrical and telecommunication installations.

AVAILABLE COLOR OPTIONS FOR PLB HDPE

RED	ORANGE
PURPLE	BLUE
YELLOW	GREEN
BROWN	GREY

COLORS CAN BE DEVELOPED ACCORDING
TO CUSTOMER REQUIREMENTS

HIGH DENSITY POLYPROPYLENE (HDPE)

JAY KISHAN POLYMERS

offers high grade HDPE plastic granules that are competitive and environmentally sustainable alternative to virgin thermoplastics. High Density Polyethylene (HDPE) granules are known for their large strength to density ratio and are extensively used in the production of plastic bottles, corrosion resistance piping, geo-membranes and plastic lumber.

AVAILABLE COLOR OPTIONS FOR HDPE

GREEN	RED	BLACK	PINK
BLUE	YELLOW	WHITE	NATURAL
VIOLET	ORANGE	PISTA	COFFEE

COLORS CAN BE DEVELOPED ACCORDING TO CUSTOMER REQUIREMENTS
